Fast Facts: Bladder Cancer, 2nd edition

Professor Derek Raghavan, Director & Chair, Cleveland Clinic Taussig Cancer Center, Ohio, USA, and **Mr Michael J Bailey**, Consultant Urologist, The Ashted Hospital, Surrey, UK.

About the book:

Cancer of the urinary bladder is a common tumour, and most primary care physicians can expect to see two or three new cases each year.

Fast Facts: Bladder cancer clearly and succinctly provides the facts that those treating and caring for patients with bladder cancer will need to know. It is a concise guide to clinical practice for family physicians, specialist nurses, and junior doctors and will be of interest to patients keen to understand more about their condition.

This book offers a clear explanation of therapeutic options to help doctor and patient make informed treatment choices and includes the evidence base for diagnosis and management of UBC. It also has new expanded coverage on chemotherapy and radiography and offers greater detail on oncology and palliation. The concluding section on Future Trends reviews prevention, earlier diagnosis, improvements to existing treatments and emerging therapies.

Contents:

Epidemiology and etiology; Pathology; Clinical presentation; Investigations; Microscopic hematuria; Management of superficial disease; Management of muscle-invasive disease; Management of advanced and metastatic disease; Future trends.
