

## List of Accepted e-Posters without Oral Presentation

**NB. These e-Posters will be included in the conference's Abstract Book**

ID 8	Current status and issues of end-of-life decision support for hemodialysis patients (Akemi Kurihara, Japan)
ID 9	Nursing problems of patients on hemodialysis therapy according the Roper-Logan-Tierney Model (Jūratė Ezelskienė, Lithuania)
ID 11	Treatment of a severe form of leptospirosis with methods of hemodiafiltration and hemoperfusion (Ivana Radunovic, Montenegro)
ID 12	Reduction of medical waste in hemodialysis (Gabriela Stanoevska, Republic of North Macedonia)
ID 13	Development of intradialytic parenteral nutrition administration protocol for diabetic hemodialysis patients (Andrei Brailovski, Israel)
ID 14	Promoting equity in kidney care for a healthier and sustainable future in Greece (Stavroula Vovlianou, Greece)
ID 16	Case study: unconventional treatment in an end-stage renal disease patient with diabetes (Andrei Brailovski, Israel)
ID 18	L'influenza dell'intelligenza artificiale nella previsione dell'ipotensione intradialitica (IDH): una revisione della letteratura (Giada Vrenna, Italy)
ID 19	Alternative solutions in pain control during hemodialysis session (Oksana Yurko, Portugal)
ID 23	Pharmacological nephrectomy in patients with chronic kidney disease (CKD) – a case report (Denis Maric, Croatia)
ID 37	Plasma exchange therapy in a young woman with dyslipidemia – the nurse role (Domagoj Purgar, Croatia)
ID 47	Nephrology nurse burnout in the United States and globally: a scoping review (Angela Kurosaka, United States of America)
ID 48	Pain management in nephrocare france: insights from the 2024 national survey (Fabien Autin, France)
ID 49	Nurse-Led Ultrasound Assessment and Cannulation of Arteriovenous Fistula and Grafts for Haemodialysis (Fiona Leigh, Ireland)
ID 50	The importance of performing a comprehensive assessment prior to starting peritoneal dialysis treatment (Shyalini Jeevakaran, Canada)
ID 51	Dilatation of av fistula through one-day observation by dialysis nurses (Dijana Žuljević, Croatia)
ID 53	Ankle-brachial index and monofilament test for early detection of renal foot complications (Mateja Hušič, Slovenia)
ID 55	Staff experience towards virtual code blue drill monitoring in hemodialysis, Diaverum Saudi Arabia (Mohammad Abusabbah, Saudi Arabia)

ID 57	Intradialytic cognitive and physical training in hemodialysis patients: a randomized controlled study (Katarina Ljubelšek)
ID 59	Access to peripheral venous circulation in a dehydrated patient using ultrasound (Bojana Stjepanović, Croatia)
ID 60	Implementing a comprehensive clinical audit tool across a multi-center dialysis network (Eyad Suleiman, Saudi Arabia)
ID 67	Teaching fistula puncture techniques for dialysis treatments to nurses. The Multiple Single Cannulation Technique (Zoltanne Szolosi, Hungary)
ID 83	The importance of psychiatric patient management in dialysis (Mónika Juhászné Leskó, Hungary)
ID 84	Implementing Lean Healthcare Management in renal centres to increase quality of care (Sabine Nipshagen, Germany)
ID 86	Relationship between secondary hyperparathyroidism and the functional physical status of chronic hemodialysis patients (Istvánné Solymos, Hungary)
ID 87	Nephrology team in treatments of kidney stones (Marina Colic, Croatia)
ID 88	Role of social media and smartphones in the lives of chronic kidney disease patients (Erika Pintér, Hungary)
ID 89	My inheritance (Laura Hoffmann, Hungary)
ID 93	Problem-based education. The role of simulation education in theoretical and practical application (Krisztina Hohmann, Hungary)
ID 95	Occurrence of multidrug-resistant pathogens among hemodialysis patients (Ferencé Gerhák, Hungary)
ID 98	The role of dialysis nurses in patient support (Zsuzsanna Karajzné Vartek, Hungary)
ID 99	Clinical Audit Process: Sharing Experiences from an International Renal Network (Suzanne Pearce, United Kingdom)
ID 101	Desensitization Procedure in a Young Immunologically High-Risk Patient for Future Kidney Transplantation - A Case Report (Mihajela Polak, Croatia)
ID 102	Challenges faced in the treatment of an uncooperative bodybuilder dialysis patient (Csilla Németh, Hungary)
ID 104	Attempts to balance the carbohydrate metabolism of diabetic patients undergoing peritoneal dialysis (Tünde Vargáné Szabó, Hungary)
ID 106	Developing a modular patient education program (Ragnhild J Haaland, Norway)
ID 107	Implementation of assisted peritoneal dialysis in the dialysis of General hospital Nova Gorica, Slovenia (Benedikta Lipičar, Slovenia)
ID 108	Training of the teaching nurses in our network (Róza Mogyorósi, Hungary)
ID 111	The impact of hybrid treatment on the quality of life of dialysis patients (Réka Molnár, Hungary)
ID 112	Moist wound healing in patients at a dialysis center (Jana Špavorová, Czech Republic)

ID 114	Home dialysis and its environmental impact (Klára Synčáková, Czech Republic)
ID 116	The increased prevalence of de quervain's tenosynovitis and carpal tunnel syndrome in dialysis nurses (Chatzopoulou Zoi, Greece)
ID 117	Support for kidney transplantation from living donors and the role of nurses (Helena Jeřábková, Czech Republic)
ID 118	The relationship between physical activity and workplace health (Lucija Razboršek, Slovenia)
ID 119	Homeless patients requiring hemodialysis (three case studies) (Michaela Černá, Czech Republic)
ID 122	Nurse's empathy for kidney patients (Sanela Stiperski, Croatia)
ID 126	The impact of creative activity on dialysis patients (Kitty Marton-Dér, Hungary)
ID 127	Evaluation of the impact of pre dialysis nurse consultation for the patients CKD (Linda Boudmarene, France)
ID 130	Permanent dialysis catheter- hidden place of problem. Case- report (Željko Lubina, Croatia)
ID 136	Introduction the association of kidney patients, helping and supporting kidney patients and their families (Mária Németh, Hungary)
ID 137	Croatia as one of world champions in salt reduction program (Mirjana Mihalic, Croatia)
ID 140	Nursing intervention in dietary behavior of patients undergoing renal replacement therapy (Ktenidou Athina, Greece)
ID 142	When prevention means protection: Influenza vaccination in international renal care network (Sokica Gegovska, Sweden)
ID 143	Rapidly progressive glomerulonephritis - case report (Maja Bešić, Croatia)
ID 148	Case report: Cryptococcal infection in a kidney transplant recipient (Dario Vukoje, Croatia)
ID 149	Case report: Subcutaneous administration of immunoglobulins in a kidney transplant recipient (Luka Prišćan, Croatia)
ID 153	Nursing interventions for the empowerment of people with chronic kidney disease: a scoping review (Elisabete Moreira Delgado, Portugal)
ID 167	Work environment management in dialysis center in Greece (Anna Grammatikopoulou, Greece)
ID 173	Nursing consultation for people on haemodialysis: SOAR analysis (Carla Dias, Portugal)
ID 178	Reducing the Risk of Venous Needle Dislodgement During Hemodialysis (Krisztina Tiroly, Hungary)
ID 180	Differences in Kidney Transplantation Outcomes Among Different Ethnic Groups (Helena Klaric, Croatia)
ID 182	Technological innovations for individuals with kidney failure receiving hemodialysis: a scoping review (Ana Rita Martins, Portugal)
ID 194	There's No Place Like Home. South Tyneside and Sunderland NHS Trust - Renal Medicine (Laura Thompson, United Kingdom)

ID 195	Assessment of quality of life of hemodialysis patients in a dialysis center in Montenegro (Damir Pelicic, Montenegro)
ID 201	Improving the care that Hemodialysis patients receive when admitted to hospital in non-renal areas (Caroline Robinson, United Kingdom)
ID 205	How do patients choose their dialysis modality: insights from healthcare professionals (Valentine Mach-Perrot, Switzerland)
ID 223	Caring for the paediatric renal patient and their environment in a holistic manner (Inmaculada Moreno González, Spain)
ID 227	Minimizing Biological Accidents in Dialysis Facilities: A Proven Approach (Adrian Gomez, Spain)
ID 228	Transforming Care: Therapeutic Reconciliation for a Safer Future in Hemodialysis (Ricardo Ferreira, Portugal)
ID 232	Improving healthcare systems proficiency with care pathway in chronic kidney disease – scoping review (Daniela Ventura, Portugal)
ID 234	Evaluation of the Lifespan and Determinants of Vascular Access in Hemodialysis Patients (Bushray Shaeran, Libya)
ID 238	Healthcare Team Contributions to the CONVINCe Study: Lessons from NephroCare Bièvres and Villejuif (Hedia Hebibi, France)
ID 239	Evaluating Dialysis Quality and Patient Quality of Life in Home Hemodialysis: NephroCare Bièvres Feedback (Anissa Hedna, France)
ID 240	Physical exercise and hemodialysis - reality in Portugal (Sónia Casado, Portugal)
ID 241	Functional capacity of hemodialysis patients - 13 years of evolution (Sónia Casado, Portugal)
ID 243	Haemodialysis: an interesting story (Panagiota Tsikala, Austria)
ID 249	Therapy data management system (Stanislav Tordaj, Serbia)
ID 265	Detecting Chronic Kidney Disease in Seniors (Anna Kliś, Poland)
ID 266	The impact of cultural differences on hemodialysis (Vesna Cvejić, Serbia)
ID 267	Does a uniform procedure contribute to a correct screening of infectious diseases? (Mary Jane Beya, Belgium)
ID 268	Nephrology path of coordinated care in primary health care (Anna Kliś, Poland)
ID 269	A retrospective audit of haemodialysis central line infections rates in an Irish Unit (Anne Mulhern, Ireland)
ID 270	Hemodiyaliz Hastalarında Renk Terapisinin Depresyon, Stres, Anksiyete ve Yaşam Kalitesi Üzerine Etkisi (Safiye Yanmış , Turkey)
