

ID	Title	Presenting
2	The role of quality indicators and change management in hemodialysis care	STAROULA VOVLIANOU
3	Mind-Body approach I nephrology care: how mental health affects physical outcomes (the nurse's role)	Maria Salti
4	Anxiety, depression, stress and suicidal ideation in hemodialysis patients	Efstathia Bakogianni
8	Octopus - artificial intelligence supported development of a dialysis machine tracking system	Max Tsisin
12	Διαθεωρητικό μοντέλο αλλαγής συμπεριφοράς για την προώθηση υγιεινής διατροφής στη χρόνια νεφρική νόσο	EIRINI ZORBA
13	Μικρο- και νανοπλαστικά στην εξωσωματική αιμοκάθαρση: μια νέα πρόκληση για την ασφάλεια των ασθενών	Eirini Zorba
18	Common Causes of Hemodialysis Machine Alarms and Alarm Fatigue in Libyan Dialysis Centers	ambarkh alfourt
25	Presentation of patients with central venous catheters for hemodialysis - Clinical center of Montenegro	Damir Pelicic
26	Control of hepatitis B infection on hemodialysis: follow-up period 2005-2025.	Damir Pelicic
29	More than procedures: making dialysis care work in daily practice	Sokica Gegovska
30	Patient education and self-management in hemodialysis care: a practice-based perspective	Elisaveta Stojanova
31	Quality of life of hemodialysis patients at the University Clinical Center in Kragujevac	Ankica Jakovljevic
32	Psychosocial and socio-economic determinants of quality of life in dialysis patients	Nikolina Škada
38	Nursing between high technology and psychological strain: the role of nursing management in dialysis	Christine Schneid
39	THE ROLE OF NURSES IN FAMILY EDUCATION OF INDIVIDUALS ON PERITONEAL DIALYSIS	Sanela Stiperski
47	High-risk pregnancy in a young kidney transplant recipient: A case report	Mihaela Poljak
48	Improving microcirculation beyond kidneys: Implementing rheopheresis in our dialysis unit	Matea Sabljic
49	A friend in need is a friend indeed: nurses and ultrasound to the rescue	Ana Terzić

ID	Title	Presenting
50	Beyond the Procedure: Croatia's First Pediatric Immunoabsorption and the Role of Psychological Support Care	Denis Maric
51	A study on the transition to frailty in dialysis patients based on functional assessment	Yuko Fujio
52	Hemodialysis Patients' Perceptions and Preferences for End-of-Life care	Akemi Kurihara
67	More Than Machines: The Nursing Role in CRRT and ECCO ₂ R	Domagoj Purgar
74	Beyond the kidneys, beyond borders: the first immunoabsorption procedure using next-generation devices	Helena Klaric
81	EVALUATION OF INFECTION CONTROL KNOWLEDGE AMONG HEMODIALYSIS TECHNICIANS BEFORE AND AFTER TRAINING.	bushray shaeran
82	Successful resuscitation following ventricular fibrillation-induced cardiac arrest in our dialysis center. Case report	Maria Németh
84	A rare complication of a common drug - statin-induced rhabdomyolysis and renal failure	Csilla Németh
85	The role of plasmapheresis in the treatment of Wilson's disease with acute clinical deterioration	Réka Molnár
87	Association between bloodline internal diameter and dialysis adequacy: a cross-sectional study	Abdulmunem Alqathafi
88	Conflicts and challenges arising from generational differences among nurses working in dialysis units	zsuzsa Nagy
89	Identification of determinants of patient satisfaction with nursing care in a haemodialysis program	Martina Vnučáková
90	The impact of cognitive functions on education of elderly dialysis patients	Zuzana Mončeková
92	Nurse challenges applying the rule of 6s without ultrasound. A case series	Niké Frakes
94	Nurses' experiences in caring for drug-dependent patients undergoing haemodialysis	Elena Longauerová
97	Grief, emotional loss and coping strategies in dialysis care	Vivien Gyarmati
102	Person-centred management of chronic kidney disease-associated pruritus: translating evidence into nursing practice	SARA MORALES PALOMARES
104	MACHINE OR HUMAN?	Kitty Marton-Dér

ID	Title	Presenting
106	Soul and self-care: Correlations between mental state and treatment adherence among CAPD patients	Laura Hoffmann
108	The role of depression and anxiety in the progression of chronic kidney disease	Erika Pintér
111	The value of gratitude intervention on emotional well-being in hemodialysis patients	Gabriela Stanoevska
112	THE FIRST EXPERIENCES OF THE PERSON UNDERGOING HEMODIALYSIS: A SUPPORT FOR NURSING INTERVENTION	Isabel Moreira
113	The professional stance of registered nurses when faced with inappropriate patient behaviors	NICOLAS GAGOLA
116	Reducing peritoneal dialysis-associated infections through Improved exit-site care nephrology department	Rachila Badalbayev
118	The role of art therapy in supporting the mental well-being of dialysis patients	Evelin Köhler
127	The invisible work of hemodialysis nurse	Sara Diklić
128	The Time We Gave Back: Time Saved Through Adaptive Learning	Iain Morris
134	Beyond clinical measurement of overhydration: Developing a person-centred fluid assessment model	Sofie Grav Hartvigsen
136	CHALLENGES OF VASCULAR ACCESS EXHAUSTION IN A CHRONIC DIALYSIS PATIENT: A CASE REPORT	Karlo Turk
137	Agile thinking in nursing: Evidence-based decision-making through precise analysis	Marina Miletić
138	ASSESSMENT OF SOCIODEMOGRAPHIC FACTORS ON HEALTH LITERACY IN PATIENTS UNDERGOING CHRONIC HEMODIALYSIS	Marija Štefić
139	Nursing best practices compilation – strategy for preventing venous needle dislodgement incidents in dialysis centers	Gabriela Magrian-Greener
148	Circulatory support and renal failure following heart transplantation. Lessons from a complex case	Katalin Pál
162	An apheresis a day keeps the autoantibodies away – apheresis methods for treating autoimmune diseases	Ana Terzic
164	Home Hemodialysis: A Comprehensive Review of Patient-Centered and Economic Considerations	Fatma Zahra Sanayon

ID	Title	Presenting
165	Assessment of pre and post dialysis anxiety and physical discomfort among patients in Libya	Abdulmunem Alqathafi
174	Between technology and empathy: how to overcome the burnout syndrome in intensive care	Goran Mošić
178	Implementation of Checklist to Improve Hemodialysis Session Safety: A Before-After Quality Improvement Study	MARIA KESISOGLOU
179	Single-center experience with Therapeutic Plasma Exchange in neurological disorders	MARIA KESISOGLOU
182	Kidney allograft biopsy: Nursing perspectives from clinical practice	Maja Smjerog
183	Surgical vs. percutaneous avf - are they equivalent?	Gordana Novaković
188	Reducing caregiver burden in chronic kidney disease: a scoping review of non-pharmacological interventions	Addolorata Palmisano
193	Health education of patients in the pre-dialysis period	Lidija Vrščaj
198	Psychosis and immunosuppressive therapy in the early kidney post-trasplant period- case report	ŽELJKO LUBINA
199	Implementation and Outcomes of Shared Haemodialysis program among Independent Dialysis Providers in UK	Jesus Manuel
203	The Impact of Interventional Nephrology in Placement of Peritoneal Dialysis Catheter	EIRINI ZORBA
205	Effective patient education to insure safe care in our network	Róza Mogyorósi
209	Generations working together for effective patient care	Judit Hegedus
210	The need for renal replacement therapy in heart failure - Case study	Judit Hegedus
212	Self-care of patients on haemodialysis	Jacek Heřka
213	Improving consistency of haemodialysis care through nurse-led review of patient performance data	Alyosha Pineda
215	Healthcare assistant as support for dialysis nurses	Elżbieta Cepuchowicz
225	Early detection of kidney diseases in school aged children	Randa Fanan
227	Animal-Assisted Therapy During Haemodialysis: A pilot study	VASILIKI RAPTI

ID	Title	Presenting
236	Obesity and kidney transplantation- case report	ŽELJKO LUBINA
237	Utilization of intelligent dialysis features in Libya: a national survey of technical operational gaps	Ahmed krayem
240	Holistic care in libyan dialysis centers and impact of peer support on young patients	Ahmed krayem
241	Fatigue and occupational blood exposure among haemodialysis nurses as a patient safety challenge.	Aneta Trzcinska
242	Shift work and hormonal health in nurses: survey findings in the context of evidence	Aneta Trzcińska
243	From policy to practice: persistent sharps injuries among nephrology nurses despite EU requirements	Aneta Trzcinska
245	Who understands transplantation? A 2023 study of knowledge gaps beyond medical education	Aneta Trzcinska
246	When dialysis feels safer than transplantation: loneliness as a driver of intentional immunosuppression discontinuation	Aneta Trzcinska
248	Out-of-Centre Arteriovenous Fistula Hemorrhage and the Cap Technique	Aneta Trzcinska
249	Primary Care as the Frontline of Global Chronic Kidney Disease Detection	Aneta Trzcinska
250	Hemodialysis Catheter Care Determines Survival: Evidence-Based Infection Prevention	Aneta Trzcinska
251	Kidney Transplantation Beyond Limits: Xenografts, Bioengineering and Regenerative Futures	Aneta Trzcinska
253	Transplantation under pressure: how crises, policy, misinformation and celebrities reshape organ donation	Aneta Trzcinska
254	Poland and Ukraine: War, Dialysis Displacement and Transplant System Resilience	Aneta Trzcinska
255	Seasonality, System Stress and Pandemic Shock: Determinants of Kidney Transplant Activity	Aneta Trzcinska
257	Organisational Interventions in the Prevention of Burnout in Nephrology Nurses: A Systematic Review	Daniela Ventura Félix
258	Religious Determinants of Kidney Transplantation: Critical Points and Clinical Solutions	Aneta Trzcinska
259	Kidney Transplantation as a Marker of Health System Resilience	Aneta Trzcinska

ID	Title	Presenting
260	Blackout Scenarios in Dialysis: When Water Loss Becomes Fatal	Aneta Trzcinska
264	Implementation of Advance Care Planning (ACP) Conversations in Hemodialysis Care	Rikke Pedersen
269	Nurses' use of ultrasound in dialysis clinics	Anna Kliś
274	Determinants of Sleep Disturbance in Hemodialysis Patients: The Impact of Fatigue and Uremic Pruritus	Hayfa Almutary
277	Care passport in a Haemodialysis Setting	Amy Linklater
