Pre-dialysis Structure 2015

Baseline

- Concerns
 - Moment of referral
 - Information
 - Communication
- Survey nephrologists
- Data collection (01.01.2015 – 31.10.2015)
 - Chronic pre-dialysis patient
 - Stage of chronic kidney disease (CKD)
 - Follow-up appointment

Baseline Results

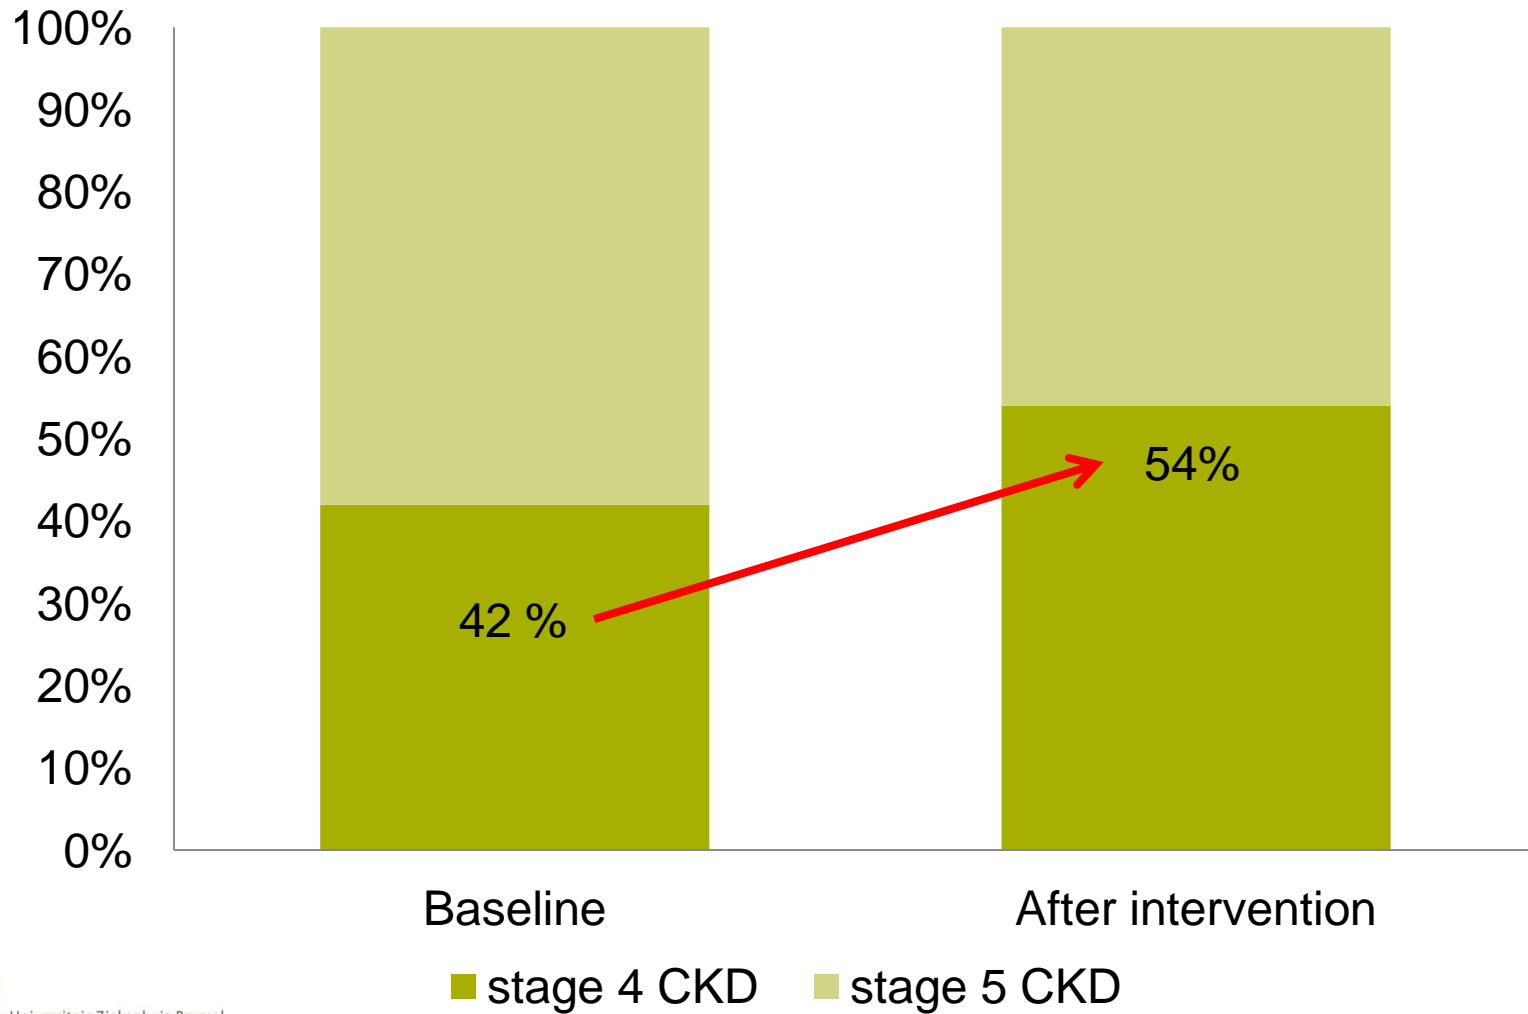

- 39 chronic patients
- 58% stage 5 CKD
- 66.5% follow-up by the nephrologist

Actions

- Multidisciplinary meeting
- New structure
 - Joint monitoring
 - Patients choice
- Fixed pre-dialysis moments
- Application document
- Data collection (01.11.2015 – 31.08.2016)

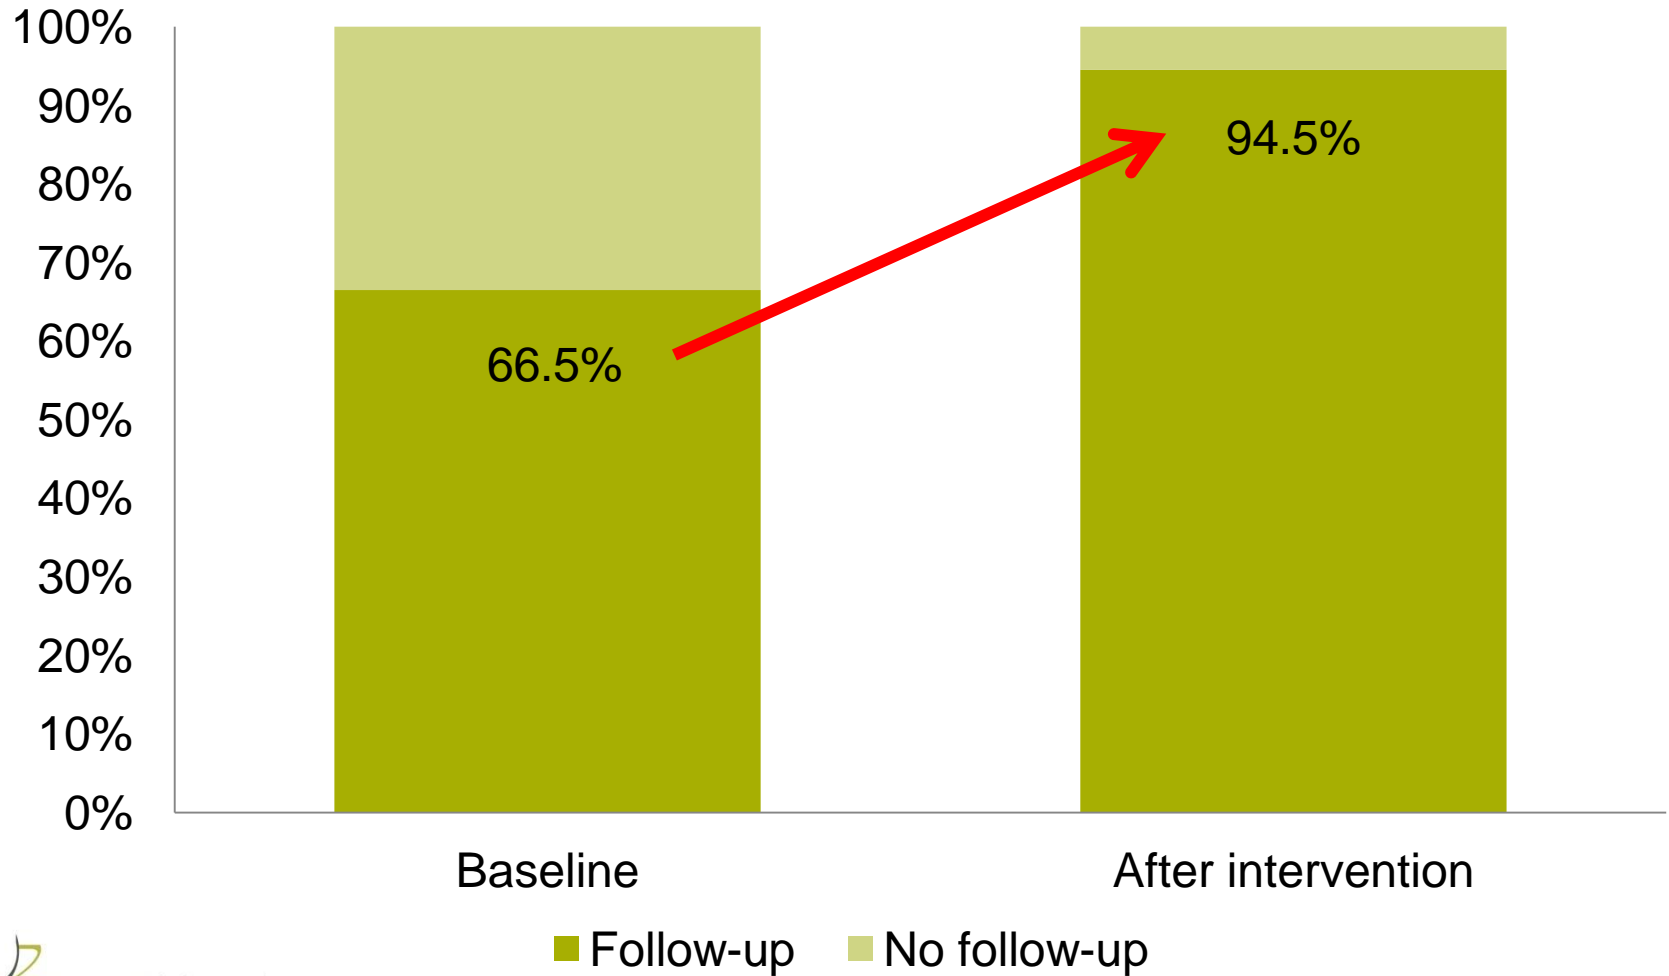

Results (1)

Stage CKD

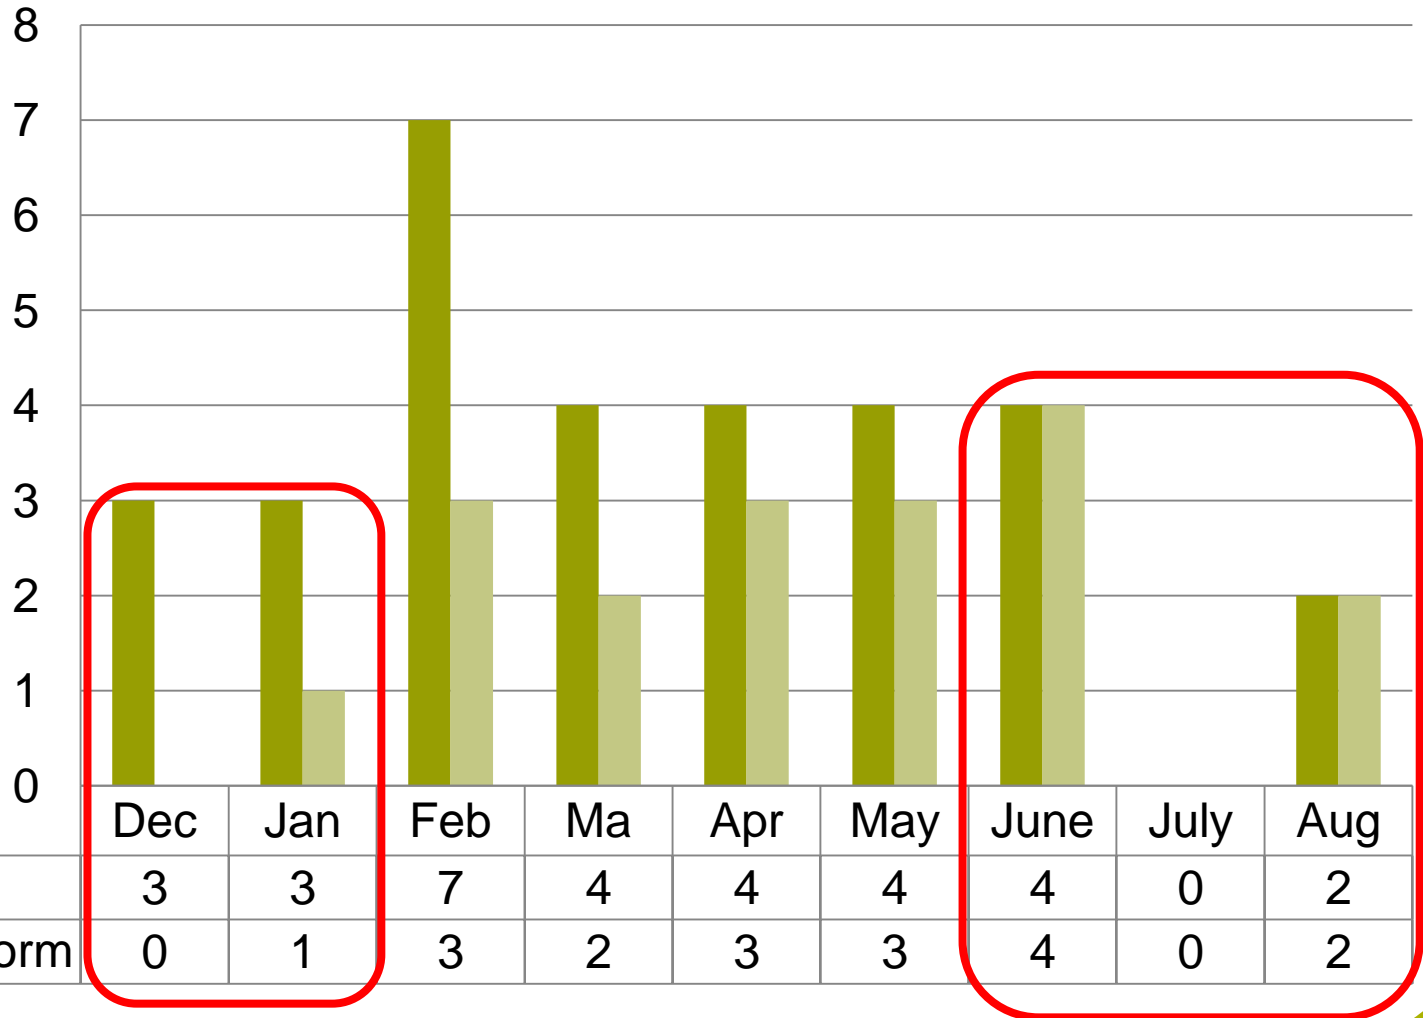

Results (2)

Follow-up nephrologist

Results (3)

Application form

Recommendations

- Follow-up document
- Application form hospitalised patients
- Follow-up pre-dialysis nurse
- Name change

Quality health care

means

doing the **right thing**,

at the **right time**,

in the **right way**

for the **right person**

and

having the best possible results.

(IOM, 2001)
