<sup>1</sup>General hospital "dr. Ivo Pedišić", Dialysis Unit, Sisak,  
Croatia

**Krakow, 2017.**

# “Kidney transplantation is the best form of treatment for CKD”

## Research

### *Objective*

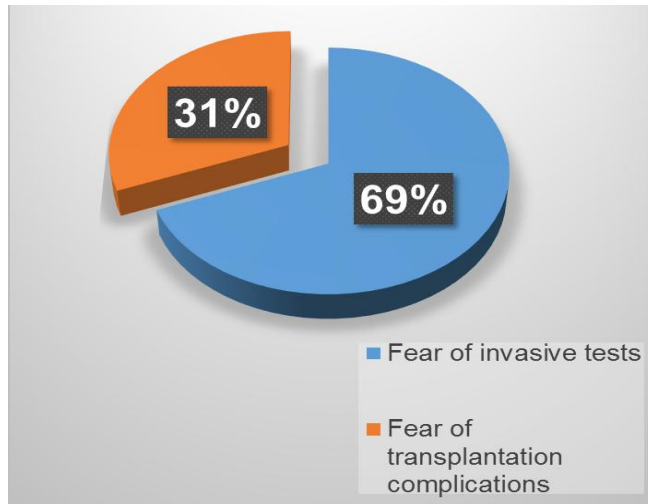

- To determine the attitudes of patients towards the transplantation
- To establish the reasons for not joining the process of transplantation

### *Methods*

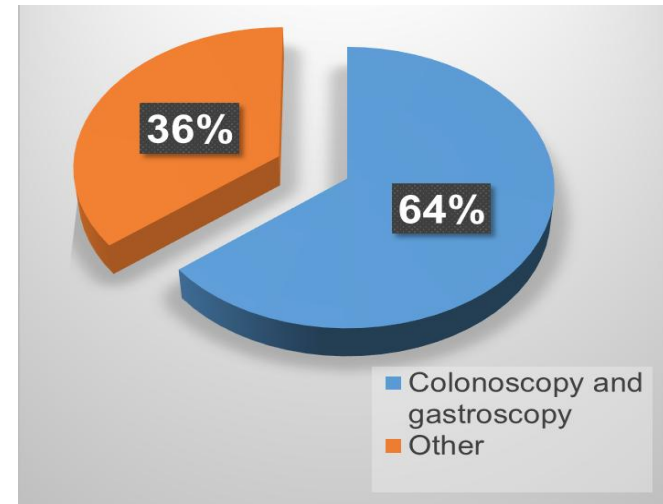

- The study was conducted in the dialysis centre of the General Hospital “Dr.I.Pedišić”, Sisak, Croatia in October 2016.
- The study included 43 patients, filling out an anonymous questionnaire

**Graf 1. Reasons for not joining the process of transplantation**

**Graf 2. The most demanding procedures**

**The most common statement patients about invasive procedures:**

- I'm afraid of pain in colonoscopy
- Colonoscopy is very painful and I think it can not stand
- I do not want joining the process of transplantation because of fear of invasive procedures
- Fear of pain during invasive procedures is my enemy in order to achieve goal

*Instead of a conclusion.....*

*I'am asking.....*

*Can we make a change.....?*

*Whose responsibility is bring changes.....?*

**It is our responsibility....**

# Thank You!
