

On 4 April 2019, the conference "Safe work of nurses" took place in Łódź.

This is a national conference. There were over 200 participants at the conference.

Aneta Trzcińska (BA EDTNA/ERCA) performed during a conference with a lecture „Safe work in a dialysis unit”.

The conference was very popular. There were many discussions during the breaks and after the conference.

Safety at work is still a difficult and important topic.
