

## EDTNA/ERCA Seminar in Israel May 13, 2015

EDTNA/ERCA Seminar took place on May, 13, 2015 in Galilee Medical Center, Nahariya, Israel. The topic of the seminar was : "Palliative Care for ESRD". Around 50 Nephrology nurses and social workers from different areas of Israel participated in the seminar.

I opened the day with presentation and an update from EDTNA/ ERCA. The broad scientific program encompassed the medical, nursing, social, laws and spiritual aspects of palliative care in patients suffering from ESRD . The best specialist in the field of Palliative Care talked about recent studies and treatment protocols. Each presentation was followed by discussion and aroused great interest among audience.

The breaks and final dinner were a great opportunity to meet colleagues and friends from different dialysis units of Israel and talk about nephrology in our country and coming EDTNA/ERCA International Conference in Dresden.

The Israel EDTNA/ERCA seminar was a great success. This fantastic educational event wouldn't be possible without help of sponsors from the industry.
