

My name is Sanne Borremans, I work as a nurse practitioner in the Dialysis and Nephrology Department at Bravis Hospital in the Netherlands. I am also the Brand Ambassador of the Netherlands for EDTNA/ERCA since September 2024.

I am committed to raising awareness of EDTNA/ERCA in the Netherlands and encouraging colleagues to become members of this association. The dialysis principle started in Kampen, the Netherlands, but there is so much to learn from around the world. In addition, presenting your own research at an international conference is an extremely educational experience.

As a member of EDTNA/ERCA, you have access to a large database of information and research, and you can attend various webinars throughout the year.

Please contact me with any questions and/or membership inquiries at s.borremans@bravis.nl.

Nb. Photo from website can be re-used in my oppion.
